

## HELLO FRIENDS

Hello Friends,

I am associated with Educare for the last 3 years and now my daughter is in Transition Class.

My biggest nightmare was the way she was dealing with her reading difficulties. However, I followed her teacher's advice and introduced her to book reading every day. Thank God for the wonderful and child friendly library in Educare that has a vast range of books.

I started borrowing books everyday from the library and made my daughter read with me and to my surprise, in a few weeks she did not only improve her reading skills but she also makes sure to read one book every day.

Today, I am extremely happy to share my experience and proudly say that a little effort from me and the teachers changed my daughter's reading difficulties. What I say to my daughter is : "a book is your best friend so, let's continue reading every day".
