

Hello dear parents and friends,

My name is Mrs. Obuoma Amaewhule. My children recently joined Educare International Daycare in 2013/2014 academic session and I must say, there has been a remarkable impact on their lives.

Akelanda (3 years) is able to say his name and age, speak clearly, using correct tenses, identifies his shapes and colours, and shows more interest in imaginative and interactive play. Chiburuoma (4 years, 9 months) is more independent, confident, courteous, inquisitive and respectful. Her handwriting has improved tremendously and she has developed a fondness for reading.

Educare is structured differently from other daycares, in that it introduces the children to the various aspects of life so that they have an idea of practicality in everything.

I am able to communicate with my children's teachers every other day which has helped to build a trust relationship between myself, the teacher and the child. The child to teacher ratio is appropriate and the facilities are spic and span, which has lead to fewer daycare infections.

Mrs. Obuoma Amaewhule
