

The Transition classes of Educare International Nursery and Daycare went on an Excursion on the 28th of May 2018 at the Planet restaurant to showcase their table manners and all they had learnt during their Etiquette lessons in school and I was privileged to be one of the judges.

My Observations are as follows:

- The Transition class children were at their best behaviour when I walked into the venue, although I was a bit late.
- Most of the Children could eat with their cutlery sets without been assisted.
- The children were quite all through the session knowing that you don't talk while eating.
- There was less movement around.
- Most of the Children enjoyed their meals although some children complained of pepper in the chicken.
- In all it was fun having lunch with the Transition class children.

I will like to suggest that the school Management should allow the children choose what they would like to eat in subsequent years because I notice a few children didn't eat much, maybe they didn't like the meal much.

Thanks.

Mrs. Chioma Obuzor.
