

## EDUCARE

I was introduced to this school by my son's God Mother Mrs. Momoh who told us that her son must attend this Daycare and no other, I was a bit worried as a first time parent.

On the first day in school, I was put at ease by the staff of the school. We were greeted that morning with a smile and activity for my son with one of the minders.

I left for work almost happy with no worries though I half expected him to cry out for me, it felt good this did not happen but as a mum you expect he should miss you immediately.

Right there I knew we made the right choice and never regretted our decision.

I have 5 children and they have enjoyed and still enjoying this great school.

I learnt a lot here too, I can read the alphabet in phonics, multiplication and division in several methods. Lots of things we have taken for granted our children have made us open eyes through their teachers.

Thank you Educare, the Teachers, Minders and most of all Mrs. Granville for being accommodating and open minded towards everyone in the school.

I am grateful and happy to be a member of this wonderful union. Yes, we are joined together to be best and be at our best for ourselves as a family.

Mrs. Ayodele Woluchem
